PLACEMENT CELL

The Placement Cell of St. Thomas' College of Law, Greater Noida, creates a platform where students can showcase their talents which different companies and law firms, seek to explore and utilize. Starting from 2019, we have successfully placed a section of law graduates who have appeared for placements. This year especially, the performance has been overwhelming.

The Placement Cell is headed by Dr. K. S. Bhati. The Cell is led by the Placement officers Mr. Dhananjay Kumar Mishra, Dr. Niti Sinha and Mr. Faheem Khan along with the Placement Advisory Board which consists of Assistant Professors and final year students from department.

The interview process usually starts with a Power Point Presentation where the various companies and law firms enlighten the students about their companies and business's profile. Those interested then go for the interview, which usually comprises of a written test followed by group discussion and personal interview.

The job scenario today is facing the onslaught of ground breaking competition from all fields and employment into good companies and organizations has become a daunting task. So, for the benefit of its students preparing to face the job market, Placement Cell has risen to the occasion and has successfully aided in providing opportunities and employment to its outgoing students.

The student committee has been able to create an extensive database of all the potential recruiting companies and firms along with their contact details. Over the past two years, the cell has been successful in establishing an initial contact with more than five firms and companies. This has definitely increased awareness among the companies and such law firms about St. Thomas' College being a potential institution for recruitment option. In fact, those schools and companies that have not been able to recruit from the College last year will surely consider St. Thomas' College, Greater Noida, an effective option in the following year.

The process is conducted by the Core Committee of third year students. Students are then divided into five groups under team leaders, who perform their office and campus duties on different days of the week. Students apply as they want to help out conduct and manage placement activities. The members contact various corporate and human resource personnel regarding the organization of campus drives. Companies begin with the pre-placement talks followed by the group discussion and interview rounds. Once the recruitment process is completed, students are intimated about their selection within suitable time. Different companies may have different selection criteria and processes for students.
